GEOGRAPHIC PLACE NAMES REMOVED FROM NOAA CHARTS

(Edition 3.0, updated August 4, 2014)

In October 2011, a new [shoreline survey](#) was applied to charts 11364 and 11358, and Coast Survey cartographers discovered that several named features no longer existed. Those geographic names were removed from the chart.

Additional changes were subsequently made from shoreline surveys that affected chart 11361 and 11364. Those names were also removed from Coast Survey charts and their status was flagged to the [U.S. Board on Geographic Names](#).

The following names are retained in official, federal records of the [Geographic Names Information System](#) and are labeled *historical*:
